

**ASOTIN COUNTY  
2012 ANNUAL CONSULTANT ROSTER  
REQUEST FOR QUALIFICATIONS (RFQ)  
PROFESSIONAL ENGINEERING AND ARCHITECTURAL SERVICES**

Asotin County is announcing to the public its general projected requirements for professional engineering and architectural services for 2012.

Asotin County anticipates a need for engineering and architectural services related to small, mid-sized and large projects including but not necessarily limited to roadway and bridge design, sewer planning and design, transportation/traffic planning, stormwater system design and regulatory compliance, site planning and building/facilities design, general county planning, landfill development, compliance and monitoring, and hazardous materials environmental compliance. Specific areas of anticipated expertise include but are not necessarily limited to civil, geotechnical, transportation and environmental engineering, bridge structural and scour engineering, and architecture.

Interested consultants are requested to send a brief statement of qualifications (SOQ) including firm resume, key firm members, project experience and at least three references. Consultants who have current SOQ's on file at Asotin County are asked only to submit a letter of continued interest. It is the consultant's responsibility to verify their SOQ's are on file. The County may discard SOQ's not updated within three years.

Consultants are selected from SOQ's on file, unless a separate RFQ is made for a specific project. Asotin County is an equal opportunity and affirmative action employer. Minority-and women-owned firms are encouraged to submit SOQ's.

Please contact the Asotin County Public Works Department, P.O. Box 160, Asotin, WA 99402, (509) 243-2074, for additional information. SOQ's should be sent ATTN: CONSULTANT QUALIFICATIONS. No facsimiles or emails accepted.
